SEARCH ENGINE OPTIMIZATION

Increase your Website's Visibility on Search Engines

On the FIRST page

92% of internet users try Google, Yahoo! or Bing first while making a purchase decision

If you are not there, you're losing business!

93% of these users don't look beyond page 1 of Search Results

SEO is the technique of improving a Website's visibility in the "natural" or "organic" results of Search Engines, thus increasing the traffic it receives.

laptops Search

About 75,000,000 results (0.13 seconds)

PAID RESULTS / ADVERTISING

ORGANIC RESULTS

My cyber lab tests show

- 33% of internet users believe that companies found high among search results are trusted brands
- Natural Search has 4times more powerful than paid results

How can **SEO** Help your Business?

Top Search Engine Ranking is a Non-Stop 24/7 Advertising Campaign

Why Invest in SEO?

BETTER WEBSITE VISIBILITY

MORE TRAFFIC

BETTER CONVERSIONS

REDUCED CUSTOMER-ACQUISITION COST

Sustained SEO efforts will afford you better ranking on Search Engines

As more people click through to prominently displayed websites, you attract more meaningful traffic

Qualified Visitors, who are looking for the Products & Services you offer, are more likely to buy

With increasing sales, cost of acquiring customers reduces significantly over time

As your search traffic increases over time, the cost of acquiring each customer will decrease, with the same monthly investment
